Plus! Download the “How To Draw a Whale” Video, Drawing Guide, and Teacher’s Guide.

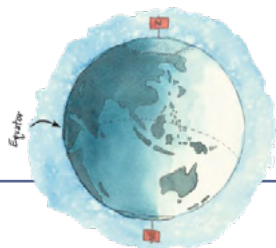

Author fee: \$250

Program Length: 1 hour*

*Add a FREE ½ hr. program when multiple sessions are booked.

“A gorgeous way for young readers to connect with the world they live in. . . . encourages readers to learn about the whales in their nearest waters and find ways to protect them.”

—Romper

“Booth’s tale . . . is moody and mystical. Her lyrical prose and cerulean watercolor art swim together like mother and calf: ‘two voices calling with a story of new beginnings.’”

—New York Times

“There is such a powerful feeling of caring in this book. Caring that can bring together people to make the world a safer, better place for right whales. The illustrations are soft and inviting. And there is wonderful back matter about right whales, where they live, and what those large white patches are called. There’s also a section about conservation efforts and what you can do to welcome whales back to their homes.”

—Archimedes Notebook
